## Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The patent term adjustment to date is 264 days. If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the term adjustment will be 264 days.

If a continued prosecution application (CPA) was filed in the above-identified application, the filing date that determines patent term adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system. (<http://pair.uspto.gov>)

Any questions regarding the patent term extension or adjustment determination should be directed to the Office of Patent Legal Administration at (703)305-1383.

## Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. James Slattery on 5/19/03.

The application has been amended as follows:

Non-elected claims 26-36 have been canceled.

2. The following is an examiner's statement of reasons for allowance:

The prior art fails to teach: Regarding Claim 1, a fixed band-tightening apparatus for forcibly nipping and deforming a projection of an annular fixing band loosely fitted to a workpiece having a shaft-shaped configuration so that a diameter of the fixing band is reduced to fix the fixing band to the workpiece, the fixing-band-tightening apparatus comprising: a holding section for gripping a shaft section of the workpiece at both ends in an axial direction to rotatably hold the workpiece in a circumferential direction in accordance with a driving action of a rotary driving source; a stopper section arranged in a lateral direction substantially horizontal with respect to the holding section, for positioning the projection of the fixing band in the lateral direction except for a vertical direction; and a band-tightening section for forcibly nipping the projection of the fixing band positioned by the stopper section to tighten the fixing band to the workpiece; Regarding Claim 13, a fixing band-tightening apparatus for fixing a boot made of resin to a constant velocity universal joint comprising: a holding section for gripping the

Art Unit: 3726

constant velocity universal joint at both ends in an axial direction to rotatably hold the constant velocity universal joint in a circumferential direction in accordance with a driving action of a rotary driving source; and end-positioning mechanism provided for the holding section, for positioning the annular attachment sections of the boot made of resin installed to the constant velocity universal joint at predetermined positions before forcibly nipping the projections of the fixing bands; Regarding Claims 14 and 15, a fixing band-tightening apparatus for fixing a boot made of resin to a constant velocity universal joint comprising : a holding section for gripping the constant velocity universal joint at both ends in an axial direction to rotatably hold the constant velocity universal joint in a circumferential direction in accordance with a driving action of a rotary driving source; and a bellows section-pressing mechanism provided for the holding section, for pressing a bellows section of the boot made of resin disposed closely to the smaller diameter annular attachment section installed to the shaft section of the inner member of the constant velocity universal joint toward the large diameter annular attachment section before forcibly nipping the projection of the fixing band in combination with the other elements of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
